

## List of Duct Testers for the 2009 Washington State Energy Code

The individuals included in this list have completed the one-day Duct Testing Training offered by the Washington State University (WSU) Extension Energy Program and meet the minimum requirements to test ducts for the 2009 Washington State Energy Code.

Technicians who can verify that they have successfully completed duct testing training provided by the Northwest ENERGY STAR Program or from Performance Tested Comfort Systems (PTCS) may also be qualified to test ducts under the 2009 Washington State Energy Code (WSEC).

For a database of PTCS technicians, refer to: <http://ptcsnw.com/FindContractor.aspx>.

For a database of Northwest ENERGY STAR verifiers, refer to: <http://www.northwestenergystar.com/partner-resources/partner/index.php>.
