WASHINGTON STATE UNIVERSITY

## Duct Testers for the Washington State Energy Code Versions 2009, 2012, 2015, 2018

The people included in this list completed the one-day Duct Tester Training offered by the WSU Energy Program and meet the minimum requirements to test ducts for the Washington State Energy Code (WSEC). We have organized this list alphabetically by city; providers who did not provide their location are no longer included in this list.

Technicians who can verify that they have successfully completed duct testing training provided by the Northwest ENERGY STAR Program or from Performance Tested Comfort Systems (PTCS) may also be qualified to test ducts under the WSEC.
